

U. S. FOREIGN POLICY HELPFUL

Administration's Aim to Promote Harmony

SOME ACCOMPLISHMENTS

One-Man Rule Avoided—Government Conducted Without Usurpation, Resulting in Economy and More Efficiency.

Boston, Mass.—A foreign policy of helpfulness and good understanding, without entanglements which would fetter American independence, was outlined by Secretary Hughes of the State Department in an address in Symphony Hall reviewing the record of the present administration in the field of international relations.

By the lead it took in the arms conference, the Secretary said, and by its efforts toward harmony among the nations of the Western Hemisphere, the American Government during the past twenty months has set a record of accomplishment far beyond what was expected of it when the new administration came into power.

So far as Europe is concerned, Mr. Hughes declared, President Harding and his advisers always have been ready to lend a helping hand where it would do the most good, but are not willing to fritter away the influence of the United States by intervention in controversies that are rooted in age-old national rivalries.

"The chief trouble at this time in Europe," he continued, "is that the great powers have not been able to agree as to questions which, being distinctly European, directly concern them, and their want of agreement is due to different conceptions of essential national policy. For us, international co-operation does not mean that we should embroil ourselves in controversies not involving our own interests."

The Secretary added that he believed a way might be found for the United States to participate formally in the selection of judges to the recently organized International Court of Justice, a project which from the first has had the sympathy of this Government. He declared that already, in a humanitarian way and through the channels of trade, the United States was really giving aid of a value incalculable. He praised the arms conference agreements, as meaning "the rescue of the world from despair," and predicted that despite the present delay the Washington treaties would be ratified by all the powers signatory to them. Ultimate failure of the conference program, he asserted, had been precluded in any case by the ratification already voted by the United States, Great Britain and Japan.

Among the other accomplishments reviewed by Mr. Hughes, as a part of the constructive program of the administration, were the negotiation of a peace treaty with Germany, the Yag agreement protecting American interests in the mandate islands in the Pacific, the reorganization of Cuba's finance, the Tacna-Arica arbitration agreement between Chile and Peru, the calling of a conference here of Central American republics, and the stabilization of Haiti and Santo Domingo.

"PERFECT MAN" DISCOVERED.

Attorney in Oklahoma Claims Title in Court Testimony.

Oklahoma City, Okla.—The "perfect man" has been found. He is J. Emmett Buckley, an Oklahoma City attorney.

Buckley admitted it when he was testifying as witness in disbarment proceedings against Ross N. Lillard, State Senator, and J. W. Burns, an attorney.

"I neither smoke, chew, drink nor swear," Buckley testified. "I never have broken a moral law or a law of God. I went into partnership with Senator Lillard to give him a firm a standing and to reform Lillard."

"You admit, then, that you are a perfect man?" asked the defense counsel.

"I do," Buckley answered; "as nearly perfect as a man can be."

ESCAPED PARSON ARRESTED.

Oklahoma Wanted For Theft Working As Day Laborer.

Alamosa, Col.—Garbed in overalls and working as a day laborer in the railroad yards here, the Rev. J. C. Trotter, former pastor of the Halseyville (Okla.) Methodist Church, was arrested on a charge of embezzling church funds. Trotter, who escaped from the McAlester (Okla.) Jail while awaiting trial, admitted his identity and added that others were implicated in the case.

RECLUSE SLAIN AND ROBBED.

Murder Believed To Have Followed Display Of \$1,000 Bill.

Binghamton, N. Y.—Cyrus Payne, a 75-year-old recluse, was found murdered in a small shack near Brushville, Pa. His skull had been crushed. It is believed he was murdered to obtain a \$1,000 bill he was seen to have in his possession.

DRYS WANT ODDS IN OHIO.

Even Money On Beer Referendum Goes Begging.

Columbus, O.—Thousands of dollars at even money that the proposed beer and wine amendment to the State Constitution will be approved by the people at the election next month, went begging for takers in Ohio. Betting reports from all over the State indicated a belief that wet forces will be victorious.

BRITISH LIQUOR SCHOONER FREED BY DAUGHTERY.

Washington.—Release of the British schooner Grace and Edna at New York was ordered by the Department of Justice after a review of the evidence in the case, which is understood to have established that prohibition officials making the seizure were unable to show conclusively that the vessel had been in illegal communication with the shore.

In some respects the case is similar to that of the Canadian schooner, Emerald, ordered released last week. The evidence against other vessels seized in prohibition enforcement is under consideration at the Justice Department and it was indicated that definite action in a number of other cases would be taken in the near future.

The Grace and Edna was one of 14 cases cited by the British Embassy in its recent protest to the State Department regarding the Emerald seizure.

MANY WAR CLAIMS IN U. S. COURT

Now Amount to \$350,000,000 May Reach \$3,000,000,000

WIDE RANGE IN DEMANDS

Include Little Stamp Books, Infringements, And Damages To Crops By Airplanes—Claims Hardly Begun.

Washington.—The United States Court of Claims has received with a large calendar of important cases for the winter term. Actions involving approximately \$350,000,000 arising out of the country's activities during the World War are pending and the influx of these cases has hardly begun. The ultimate aggregate of such claims is estimated by the Attorney General at between \$2,000,000,000 and \$3,000,000,000.

These actions are brought into the court by plaintiffs having claims against all departments of the Government, including actions for requisitioning of ships and railroads, transportation of troops, ammunition and supplies, infringement of patents for high explosives, submarine boats and torpedoes, wireless and radio apparatus, contracts for anti-aircraft engines and guns, military and naval supplies and ammunition, appropriation of camp sites and naval bases, together with contracts for manufacturing and acts of commandeering of almost endless diversity.

The petition of one inventor claims \$1,000,000 for the little pocket books of stamps which are sold at every postoffice. Another claims that as early as 1905 he invented a gliding machine, involving the principles upon which every airplane operated by the Government is constructed, and if successful he may recover \$10,000,000. About \$1,000,000 is asked for infringement in the manufacture of torpedoes and about \$30,000,000 for radio apparatus.

One test case is brought by a savings bank to determine the liability of the Government for stolen Government bonds and coupons, and if successful will result in other suits which, it is estimated, will swell the Government's liability to \$150,000,000. Other claims are made for injuries to persons and property by mail trucks, and reimbursement is claimed by farmers for destruction of land and crops by alighting mail planes. The owner of intoxicating liquor, whose supply has been illegally confiscated by prohibition officials seeks indemnity in money damages.

In preparation for the disposition of this new business the Court of Claims has so cleared its dockets that not only pending suits but actions based on these war claims are given immediate attention, and all cases are disposed of as rapidly as they are prepared and presented by counsel.

BRINGS 26,000 SEAL SKINS.

Catch From Pribiloff Islands Reaches Seattle.

Seattle, Wash.—The steamship Brookdale has arrived here with about 26,000 seal skins taken last summer in the Pribiloff Islands, Alaska. The skins, Harry J. Christofers, agent of the United States Bureau of Fisheries, announced, are worth from \$10 to \$15 each in their present raw state, and about \$35 each tanned.

ELECTION COST HIM NOTHING.

New Senator From Georgia Files Campaign Fund Statement.

Washington.—It did not cost Judge Walter F. George a nickel to win the Senate seat from Georgia, made vacant by the death of Senator Watson, according to a sworn statement filed with the Secretary of the Senate. Mr. George reported that no contributions had been received or expenditures made in his behalf had been made by himself or any agents.

ASK U. S. AID FOR LEAGUE.

Japanese Delegate Wants Washington To Co-operate.

Geneva.—The co-operation of the United States with the labor bureau of the League of Nations was declared highly desirable here at the International Labor Conference in a resolution presented by the delegate of the Japanese Government. The conference was urged to find some means of obtaining the adherence of the United States to the bureau.

FASCISTI SEIZE ITALIAN TOWNS

Florence, Pisa and Cremona Among Cities

SIX SHOT IN CREMONA

New Cabinet Waits—Mussolini Expected To Name Ministry Or Dictate To Salandra.

London.—The Times prints a "message from Italy," without naming source, saying: "The Fascisti at 11.30 (Friday night) began a concerted action on several towns. They are now masters of some of the chief towns like Florence, Pisa and Cremona. Communications between north, south and central Italy have been interrupted."

"Everywhere in these towns they deposed the state authorities and assumed command. It seems there was no resistance and no conflict, except in Cremona, where six Fascisti were shot. Everything is quiet in Milan, where there is a great display of troops. There is no news from other centers."

Benito Mussolini, head of the Fascisti, remained in Milan and had numerous conferences with Fascisti leaders and also a talk with the local prefect, says a dispatch to the Times from Milan. The dispatch gives the text of a circular which the Fascisti have distributed in Pisa and other places. It says:

"Officers, soldiers, citizens: The Fascisti movement is neither against the country nor against the King. We want His Majesty to be really King of Italy and not submit himself to State actions which are cowardly imposed on him by his present weak ministers."

"We march on to Rome to give Italy her full liberty; give the Italian people an Italy as was dreamed of the half million dead in the great war and by our own dead who continued at war during peace."

"Marching with the sincere desire of peace and love, our greatest shall always be 'Long live the army, long live the King and long live Italy.'"

King Returns To Rome.

Rome.—The Italian Cabinet, headed by Premier Facta, handed their resignation to the King Friday.

The announcement had been expected and therefore caused no surprise among the people of Rome. King Victor Emmanuel has requested Premier Facta and his colleagues in the ministry to continue their routine work until a new government has been constituted. Meanwhile the members of all the political parties express the hope that no disorders will result and that the various factions will permit the crisis to be solved without any undue pressure.

RAT POISON KILLS CHILD.

Girl Refuses To Admit Eating Stick Hidden By Mother.

New York.—Detectives of the Greenpoint station have been making an investigation as a result of the death of Agnes Thompson, 12 years old, who bit into a sample of rat poison in her home.

The child's mother, Mrs. Margaret Thompson, said the poison had been given her by a canvasser who called at the house. To keep it from her daughter, she put it on a high shelf. The child in fear refused to admit finding the poison until she was taken to the Wyckoff street hospital. The girl died there.

MEXICAN REBEL REINFORCED.

Murguia Is Joined By Forces Under Arrieta Brothers.

Eagle Pass, Texas.—Gen. Francisco Murguia, Mexican revolutionary leader, recently reported hiding in the hills of Sinaloa following his defeat by Federal troops, has been joined by forces under the Arrieta brothers, and will attempt a "comeback," according to reports here. Murguia and his troops are near the Durango-Sinaloa state line. Pablo Carrasco, commanding rebel forces recently recruited in Sinaloa, is understood to be conferring with Murguia and the Arrietas.

CHICAGO BATHERS OUT.

Warm October Weather Sends Many To Swim In Lake.

Chicago.—Hundreds of hardy bathers took advantage of the warmest late October weather Chicago has experienced for 50 years, by dips in Lake Michigan Sunday. Six swimming races were held at the South Shore Country Club, the feature of which was a 220-yard free-style event for women.

MARRIAGE MIXES UP KIN.

Father And Son Wed Sisters And Become Brothers-In-Law.

Schenectady, N. Y.—Father and son became brothers-in-law and sisters assumed the relation of mother and daughter-in-law when Herbert A. Davenport, 43, married Rebecca Graham, 35, and Anson Davenport, 19, took Helen Graham, 21, as his bride.

PUBLIC OWNERSHIP WANES.

Australian Government Goes Out Of Shipbuilding Business.

Sydney, Australia.—Government ownership is on the wane in Australia. The Australian Government has announced it is going out of the shipbuilding business and also out of the business of owning and operating merchant steamers. As for its woolen mills, it has decided that they should be handed over to private enterprise.

60-YEAR-OLD WIFE CLUBS HUSBAND OF 90 TO DEATH.

Chicago.—Isaac Glick, 90 years old, blind and feeble, was clubbed to death by his wife, Mary, who is 60 years old. She wrenched out the leg of a heavy Morris chair and used it as a weapon. Neighbors, aroused by screams and the sound of fighting, peered in the windows and saw the woman beating Glick.

When the police arrived, Mrs. Glick said she and her husband had quarreled over insurance and that she struck him in self-defense. His skull was fractured and one of his ears hung by a shred.

DODGERS OF TAX OVER MILLION

Drive Against Army of Income Tax Delinquents

COUNT ON \$500,000,000

Sees Possibility Of Covering Entire Treasury Deficit Of \$700,000,000—New York Heads List.

Washington.—Government revenue agents and auditors, just catching up with their after-the-war work, have made the startling discovery that more than 1,000,000 persons liable for taxes on incomes above \$5,000 have dodged payment, either through not making returns or concealing assets.

This was learned at the Treasury Department, simultaneously with the inauguration of a drive on the part of the Internal Revenue Bureau to catch the evaders.

Revenue experts estimate that the Treasury can be enriched to the extent of \$500,000,000 in collections from individuals who have failed to make any returns for four years.

In cataloguing taxpayers throughout the country agents have found that the number of persons who should have made returns and did not will total nearly 1,000,000. In addition there is also shown in the reports a large class of tax evaders who have put themselves in the \$5,000 class, whereas their earnings are considerably larger than that.

Orders have gone out to internal revenue collectors to make a round-up of small business concerns in large cities. These cities will be centers of a whirlwind smash at the evaders in the next few weeks. From New York, Philadelphia, Boston, Cincinnati, Cleveland, Detroit, St. Louis, San Francisco and Pittsburgh the drive will be extended to other cities upon an equally vigorous scale, it was said by Treasury officials.

The Government's greatest loss from tax revenues since the war is ascribed to "shirking" by small business concerns in the larger cities. The Government has gained access to bank accounts and other data, which reveals the liability of thousands of such concerns. The evaders have hidden in the majority of cases behind faulty accounting methods and in a surprisingly large number of cases, it was shown by the preliminary investigations, ledgers were not used at all.

In New York City it is estimated that 50,000 or more merchants of different kinds have dodged taxes by failing to make any return showing earnings. In the aftermath rush this class of concerns succeeded in their deception, but at last the Government is catching up in its annual audits, and is checking back over listed firms and individuals with parallel data showing business profits.

Some officials said if the campaign of recovery is as successful as officials anticipate, the entire estimated deficit of \$700,000,000 this year may be overcome.

The Treasury's extra efforts grow out of the fact that the Administration faces the necessity of finding new additional taxes, unless some other way is found to balance receipts and expenditures.

KLAN ADOPTS NEW STUNT.

Stranger Leaves Flags With Five Public School Heads.

Punxsutawney, Pa.—Quietly walking into the principal's office of each of the five public school buildings in Punxsutawney, a well-dressed stranger placed a bundle on his desk with the remark: "Here's a bundle for you." He then walked away.

When the bundles were opened each was found to contain a large American flag and a letter, signed by the Ku Klux Klan. The letter asked that the flag be flown over the building every school day and that the Bible be read at each session. Another flag was promised when this one, by constant use, had become "tattered and worn."

KIDNAPPED GIRL FOUND.

Marianna, Fla.—Helen, 9-year-old daughter of Mrs. M. B. Travis, of Chicago, who was kidnapped in Chicago last August, was found here in custody of Mrs. Florence Spencer. The child's mother readily identified her daughter.

HARDING BUYS CERTIFICATES.

Purchases \$1,125 Worth Of New Treasury Issue.

Washington.—President Harding at Friday's Cabinet meeting, went to the steps of the executive offices and there purchased from Secretary Mellon \$1,125 in Treasury savings certificates, tendering to the Secretary his check for \$924.50, their present price. The President purchased one \$25, one \$100 and one \$100 certificate.

Farm Yield Good This Year

That the past season has been one of the greatest in several years, for Delaware orchardmen, is indicated by the large shipments made over the Delaware Division of the Pennsylvania Railroad.

The apple shipments for last week was 249,112 baskets, as compared with 8 baskets for the corresponding week of last year. To date 1,550,469 baskets of apples have been shipped as compared with 114,435 baskets for the corresponding period last year.

Last week's shipment of pears also greatly outnumbered the baskets shipped in the corresponding period last year. The shipment last week totalled 4,943 baskets as compared with none for the corresponding week last year. The total shipments to date numbers 139,160 baskets, with no comparison made to the company's records.

The peninsula tomato crop is another one of the profitable ones for the farmers this year. Last week 4,945 baskets of tomatoes were shipped over the division, as compared with 1,267 baskets for the corresponding week last year, totalling 329,856 baskets to date as compared with 116,413 baskets for the corresponding period last year.

How Not to Take Cold Some persons are subject to frequent colds, while others seldom, if ever, have a cold. You will find that the latter take good care of themselves. They take a shower or cold sponge bath every day in a warm room, avoid over heated rooms, sleep with a window open or partly open, avoid excesses, over eating, becoming over heated and then chilled and getting the feet wet. Then, when they feel the first indication of a cold, they take Chamberlain's Cough Remedy without delay and it is soon over.

LEAVE IT TO THE HATBAND

Bank Officials Satisfied Initials There Are Reasonable Method of Identification.

"Cash a check for \$200?" The paying teller gulped and then asked, "Have you an identification?" The man outside the wire window opened his wallet and produced his automobile owner's license. "I'm sorry," declared the teller, "but that won't do."

The man with the check produced legal documents, letters and other papers which happened to be in his brief case.

"Sorry again," came from behind the window, "but none of these will do. Let's see your hat."

The customer handed over his weather-worn straw for examination. After a glance in the leather band the clerk methodically counted out the money.

"That's the surest identification," confided the teller, "for although impostors might have all kinds of fake documents to prove who they are, they are not likely to think of having letters in their hats to correspond with those under which they seek to get money. Of course, the 'J. J.' may stand for Joseph Johnson, but the chances are in favor of John Jones. The hat beats all legal documents for telling the truth."

OLD ENGLISH HEDGES GOING

Landscape Beauties Being Sacrificed to Demands for Increased Production From Land.

One of England's greatest beauties, the hedgerow of hawthorn, or "May," is rapidly disappearing. Driven out by the tractor, either in the west of England, noted for its double hedgerows, sometimes with narrow paths between, or the Eastlands, with hedges and dikes alternating to the marshes, some landmark of this kind has disappeared.

In Hertfordshire and Sussex this fine thing is happening and the old sturdy roots are being dug up and burned, and replaced by miles upon miles of wire fences, to keep the sheep within bounds. Young college-bred farmers, filled with enthusiasm, facts and labor-saving ideas, have it all worked out, and much of the beauty of rural England with it. Cut all the hedges out of four fields of 10 acres, and you have one field of 40 acres; one man and one tractor can plow it in 10 days; where with hedges it took a horse plow 40 days to accomplish the same result.

What Counts. There was a gleam of triumph in the young man's eyes as he gazed at the woman he loved. "I'm going to write a great novel that will make me famous," he said. The beautiful girl remained seated and made no reply. "Then I have a scheme to bring peace and happiness to the world," he continued. "She still remained seated. 'In order to carry out this scheme I needed money,' he went on, 'so I played the market and won over a million.' She jumped up and fell into his arms."

ARMY IN NEED OF MORE FLYERS

Secretary of War Says United States Is Lagging in March of Aviation.

STUDIES AVIATION IN EUROPE

General Mitchell Reports Result of Two Months' Investigation Abroad—Legislation Needed Requiring Inspection of Airplanes.

Washington.—For the time being at least the United States is lagging behind the march of aviation progress. This is, however, a condition which must and will be remedied if Secretary of War Weeks has anything to say in the matter—and he has.

The secretary of war lately declared that the European nations, particularly those of them like Great Britain and France, that have attained the utmost degree of efficiency in the flying art on the military as well as on the commercial side, are spending much more money in the development of aviation, are developing superior types of machines and in general are quite a few steps in advance of the United States.

Studied Aviation Abroad. The secretary of war is making a study of the status of aviation here and abroad with a view to putting the United States in the forefront of the march. He received lately from Brig. Gen. William Mitchell, assistant chief of the aviation service, the result of two months' investigation the latter has made of conditions in Europe.

Incidentally Bill Mitchell, one of the veteran flyers of the country, told the secretary of war of a narrow experience he had the other day in the vicinity of Detroit when making a flight from Chicago. General Mitchell ran into a thunder cloud which had a length of at least 120 miles.

General Mitchell had never in his previous experience run into a storm of this size. Thunder clouds, always a deterrent to aviators, usually measure about twenty miles and by flying on the edge of it, the aviator can get into the open in short time. After skirting the edge of this cloud for some eighty miles General Mitchell found that it extended still forty miles.

Discussing his visit with General Mitchell, who had just completed a trip from McCook field, Dayton, O., to Bolling field, Secretary Weeks said that General Mitchell believes that stricter examination and licensing is the great prerequisite to the development of commercial aviation in the United States.

Before the general public can feel assurance regarding commercial air routes the secretary said there must be legislation that provides rigid inspection of airplanes and the licensing of pilots. Federal regulations are deemed the most appropriate, as these would eliminate discrepancies in laws and conduce to uniformity.

Encourage Commercial Aircraft. From the standpoint of the War department the development of commercial aircraft should have every encouragement for the reason that it would provide for the army a great reserve of competent pilots and officers in any national emergency.

At the present time there is no law providing for the inspection or regulation of pilots or their machines when engaged in commercial service, and this fact, the secretary of war believes, has given rise to many of the accidents that have occurred.

As an example of the degree of safety which may be attained in commercial flying the secretary of war instanced the fact that one commercial line operating between Miami, Fla., and Nassau has carried 50,000 to 100,000 passengers without an accident. The same company that operates the Miami-Nassau route is now interested in developing an air route between Detroit and Cleveland by way of the lake.

BIRTHS FEWER; DEATHS GAIN

Census Bureau Reports Shrinkage in New Arrivals in First Quarter of Year.

Washington, D. C.—The birth rate is declining and the death rate increasing, according to statistics made public by the census bureau covering the first quarter of the year.

The birth rate in the states from which comparative figures are available shows an average of 23.3 for each thousand of population in the first three months of 1922, compared with 25.3 in 1921, while the mortality average in the registration area in the first quarter of this year was 13.7, against 12.6 in the same period last year.

North Carolina, with 29.2, reported the highest birth rate for the first three months this year, and the state of Washington, with 16.5, the lowest. The District of Columbia had the highest mortality rate, with 17.6, and Wyoming the lowest, with 9.6.

Denatured Alcohol. Denatured alcohol is grain alcohol made unfit for use as a beverage. Completely denatured alcohol is made by adding ten gallons of wood alcohol and a half gallon of benzene to 100 gallons of ethyl alcohol. This is free from government tax and may be bought by any one for use as fuel or light.

The denaturing must be done when the alcohol is produced and in bonded warehouses used exclusively for the purpose and for storing denatured alcohol, and is done under the supervision of the government, according to the law. The grain alcohol may be made from grain, corn, potatoes or similarly starchy products, but the conditions under which it must be produced make it impracticable except for well-equipped factories.

YOLKS + WHITES = EGGS

For every egg yolk in a hen's body she must have enough white to complete and lay an egg. If her feed lacks material for whites she absorbs the excess yolks and gets too fat to lay. "Boarders" don't even pay for the feed they eat.

Purina Makes Hens Pay

Purina Hen Chow and Chicken Chowder, fed together, make more eggs because they contain plenty of both white and yolk elements. They will get more eggs for you or your money paid for the Chows will be refunded. Start feeding now.
